A largely fine day, though feeling rather cool on the summits. Appropriate sun protection required, but also waterproof layers for those unlucky enough to get caught in a shower or two.

**Maximum wind:** Easterly 15-20mph

**Chance of cloud-free hill tops above 800m:** 90%

**Low Cloud and visibility:** Hills largely free of cloud, but the odd patch possible on very highest summits, around 1000m. Generally very good to excellent views expected. But poor in valleys at first with any mist or fog patches.

**Temperature:** **Valleys:** Plus 6 Celsius rising to Plus 18 Celsius
**At 800m:** Plus 8 Celsius rising to Plus 11 Celsius
**Freezing level:** Above summits.
